

Lagos State announces excavation project along Anthony Village Bus Stop | 1

The Lagos State Ministry of Transportation has announced an ongoing excavation project at the Anthony Village Bus Stop in a statement released by the ministry on the 3rd of August.

According to the ministry, the project is aimed at providing a lasting solution to the part of the road that has been affected by heavy rainfall and is to be reconstructed using interlocking stones.

The announcement by the ministry also comes with traffic management plans, as the ministry stated that measures have been put in place to manage traffic for the duration of the project.

It stated that motorists travelling from Fadeyi to the Apapa-Oshodi Expressway and intending to use the Anthony Village route will not be able to do so.

Moreover, motorists intending to use the service lane at Anthony Village Bus Stop to connect to Oshodi are advised to take alternative routes, remain on the expressway, and connect to the route ahead.

Meanwhile, motorists travelling from Oshodi to access Anthony-Ikorodu Road through Anthony Village should be aware that there is no access road at the project location.

The ministry advised motorists to plan their journeys ahead, follow the traffic management directives in place, and avoid the project area by utilizing alternative routes to prevent delays.

The State Government appreciated motorists and other road users for their understanding and cooperation.
